

Soft Water For You And Your Household

SOFTENERS

The Satin Series 2.0 water softeners are built to last, easy to operate, and provide the quality water you need for everyday life. Your water will now perform at peak — creating richer lathers by using less soap, rinsing cleaner without film and residue and even protecting your household plumbing from staining, scale and mineral deposits.

System Features & Benefits:

- **Metered Control** self-adjusts regeneration cycles based on household's trend of water consumption
- **Softening Resin** reduces hardness, prolonging life of plumbing system and reducing energy consumption
- **Advanced Electronic Controller** allows for system customization based on application as well as detailed water usage history
- **WQA Gold Seal Certified** Providing optimal efficiency with reduced water and salt consumption
- **Service Alarms** based on time and or gallons to optimize maintenance schedules

Soft Water For You And Your Household

SOFTENERS

Featuring The Vortech® Plate

Vortech Technology creates fluidity of the media bed and extends contaminant removal capacity — meaning fewer regenerations and a significant reduction in water usage.

Cabinet Design

The low profile allows full access to the control valve for programming and servicing without having to remove a cover.

Vortech plate not available with cabinet.

LOW PROFILE OPTION

Featured Media

- Resin
- Hardness reduction
- Stops energy drain in water heaters
- Softens household water using minimal salt and water

	Satin Series 2.0 Water Softener		
	1044	1054	1354
Hardness	75 gpg	100 gpg	100 gpg
Iron (red stains)	1 ppm		
Manganese	.5 ppm*		
Applications	Softens Water • Reduces hardness • Capable of reducing low levels of dissolved (ferrous) iron & manganese • WQA Gold Seal Certified for efficiency * Manganese reduction is highly dependent on water conditions
